

Help Balmoral Tackle Plastic Pollution

**BALMORAL
SHOW 2024**
15TH – 18TH MAY

Did you know?

The Balmoral Show 2023 resulted in an impressive 35% reduction in waste compared to 2022.

As part of an aim towards reducing zero waste plastic, we are asking all Caterers and Exhibitors to refrain from using the following:

- Plastic carrier bags
- Plastic bottled soft drinks
- Plastic cutlery & stirrers
- Plastic or polystyrene food containers
- Plastic lollipop sticks
- Plastic packaging & wrappers
- Plastic straws
- Plastic or polystyrene take away cups

Please use paper or cardboard packaging/bags & wrapping, wooden cutlery and compostable takeaway cups as an alternative.

One of the most common single-use plastics are plastic bottles, caterers and traders are asked to sell canned soft drinks only (with the exception of bottled water).

With these measures Balmoral Show can further reduce the amount of plastic waste produced at the show .

NO BOTTLED SOFT DRINKS

**BOTTLED WATER OR CANS OF SOFT DRINKS
ONLY**
